

NEWS LETTER

Creativity is taking the best skills and techniques from experts around you, and improving upon them.

DMians

We at DM school System believe, along with studies and achieving high scores in the world of academics, we want our students to have a perfect balance of co-curricular activities as well. We as an institute can not stress enough that curricular and co-curricular activities go hand in hand. As educators, we do not only want our students to grow academically but also mentally and physically, and work to build their characteristics. A teacher is not only who gives their student textbook knowledge but worldly as well. Throughout the year, our dedicated staff and management organizes different events that bring out the best in each student. We design our events and activities in a particular way that helps our DMians to discover their abilities, be it arts and craft, performances, public speaking, sports leadership skills, and many more. Our teachers bring out the best in every student and polish their skills in order to make them better versions of themselves.

Teachers- Bricks of our foundation

We might be the brain and heart of our institute but our teachers are the spine of it. For the past 1.5 years since the time of the pandemic, our teachers have stood by us like a rock. They have hit the ball out of the court with their constant dedication. Hence, as an institution, we take up as our responsibility to make our faculty stress-free and show them our appreciation through our actions. We arrange different seminars that counsel our teachers and help them maintain a healthy work-life balance. We make sure to create a positive, fun, and energetic environment for our teachers that will help them grow. We believe teachers are the bricks of the foundation we have built; they paint the picture which as an institute has a vision. Hence their wellbeing is our utmost priority.

Achievements

Results of 2021

This has been a trying year with a lot of uncertainties and concerns. Nevertheless, the efforts that were put in by O'level and Matric students, their parents, and the faculty have borne their fruit.

Seminars At DM

Mental Health Day Awareness:

Mental Health includes our psychological, social, and emotional well-being, and it is as important as physical health. Stress, unhappiness, depression, anxiety all have adverse effects on people of all ages, and we need to stay aware of how to combat them in our daily lives. We believe in breaking stigmas here at DM school, specially in today's world, with so much pressure upon our students, be it academically or personally. We invited two psychologists from Sindh Institute of Physical Medicine and Rehabilitation, (SIPMR), who helped students to have a better awareness of themselves.

Drugs Awareness Seminar

Usage of drugs is a common problem amongst youngsters. As per our research and professional assistance, we have come to a conclusion that a common reason for it is that people are unaware of its side effects on their physical as well as mental health. The main reason is that we shy away from topics like this and don't talk about it much often, which leaves our young generation directionless. . Thus we at DM School System consider it our responsibility to make our students aware of all the facts about this particular issue and guide them in the right direction.

Co Curricular Activities:

Besides developing academic excellence, the school strongly believes in the importance of co-curricular activities for students' holistic growth.

International Kangaroo Mathematics Competition

Yellow Day

World Peace Day

Spelling Competitions

Mid Term PTM:

A PTM is an interactive session between the parents and the teachers that serves as a bridge between the home and the school. We acknowledge parents' continuous support in their child's academic development and coordination with teachers. First PTM was held on 6th November'2021 at DM School System .

Yellow and Red Colour Day was celebrated in Play Group:

Celebrating colour day is great to accentuate the importance of each color in students and help them learn different things associated with colors. The 'Red Day' & "Yellow Day" celebration was a wonderful learning activity which helped children to understand the concept of Primary Colours.

Activity-Based Learning:

Activity-based learning is a fun approach to learning as it boosts the development of the brain in children by providing constant stimulus by prompting them for responses. It supports the development of social skills. It improves their confidence, tests their cooperation levels when in groups, and builds their communication skills. The children learn to challenge themselves and come up with creative solutions!!

Breakfast Day

Eating a healthy breakfast is an important part of students being ready to learn each day. In short, kids who eat breakfast do better in school. A healthy breakfast is a great way to give the body the refueling it needs. Kids who eat breakfast tend to eat healthier overall and are more likely to participate in physical activities. Skipping breakfast can make kids feel tired, restless, or irritable. To give more awareness to our students of pre-primary, we arranged a Healthy Breakfast week from 26th October'21 till 28th October'21

Defence Day

Defence Day, as the name suggests, commemorates the day when our national armed forces successfully defended the attack of Indian forces on our country in the 1965 war. It is a tribute to our armed forces and all the martyrs of the war. It is celebrated on September the 6th each year. Defence Day of Pakistan was celebrated with zeal and enthusiasm on 6th September 2021. Students paid tribute and homage to the nation's heroes.

Co Curricular Activities:

World Soil Day

World Post Day

Global Handwashing Day

Peace Day

Children's Day:

"Children before everything" is the theme of International Children's day this year. Children's Day is a commemorative date celebrated annually in honor of children, whose date of observance varies by country. DM celebrates Children's Day every year as a colorful and fun-filled event. This year we celebrated the day on 19th November, 2021. Children had a great time playing interesting games, singing songs and playing with their class fellows. Apart from this, they enjoyed eating candy floss, pop corns, Magic show was arranged by the school which was enjoyed by the kids . Our students actively participated in the class parties and the rest of the activities. The entire session was full of giggles and laughter.

Iqbal Day:

Iqbal day is organized and celebrated on 9th November every year around Pakistan as a tribute to Allama Muhammad Iqbal, the "Poet of the East". Students paid rich tributes to the Poet of the Nation, Allama Muhammad Iqbal, on his birth anniversary, on 9th November 2021.. Tributes were paid to the poet of the East, Dr Allama Muhammad Iqbal in form of various "Kalam e Iqbal", and tableaus, depicting vision of Iqbal for the nation especially the Muslim youth. Junior Section prepared a tableau on his famous verse "lab pe ati hai dua", Senior Section prepared a performance on another famous poetry " Makra" aur " Makhi" and Montessori teachers prepared performance on his famous poetry "Sachi Hamdardi"

Co Curricular Activities:

World Soil Day

World Post Day

Global HAndwashing Day

Peace Day

Seerut-Un-Nabi Conference:

Yearly, Seerut-un-Nabi conferences are organized at our campuses, which is the amalgamation of hadees, speeches, and naats. As an educational institute, it is a small effort from our side to enlighten our young generation with the teaching and characteristics of our Beloved Prophet Muhammad P.B.U.H.

Student Elections 2021

Every year we let students choose their council, their representatives. This practice is held yearly in order to build a sense of responsibility in our younger generation. As educationists, it is our responsibility to build the character of our individuals. This activity works on the leadership skills, decision-making power as well as confidence of our students.

Teacher's Revitalisation

This year, the management of DM school System decided to organize a fun workout session for our teachers that helped them reboot themselves and give them a boost of energy. Our trained Yogi conducted a 45 min session that was a combination of Zumba as well as yoga. It was a fun activity that helped our educationists take a break from normal routine. As Khalil Gibran rightly said: "You are the bows from which your children as living arrows are sent forth."

Teacher's Throwball Bash

This Teacher's Day, we celebrated a fun hour with our teachers for a refreshing break. We would like to take this opportunity to encourage and appreciate the constant efforts and hard work of our teachers. Especially this year, during the pandemic, they have really hit the ball out of the court with their constant dedication. Being a teacher is like being a rockstar, you hear your name from everywhere.

Co Curricular Activities:

Breakfast Day

Global Handwashing Day

Defense Day

Teachers' Day

Students' Corner

We give our students various opportunities to showcase their talents in different competitions that will enhance their knowledge as well as their skills.

Poster Making Competition

Peace Poetry Writing Competition

Word "Peace" gives warm feelings in our heart
It feels like having a holiday with family enjoying
a lemon tart

No wars, no blood, nothing anywhere
Only joy and Harmony everywhere
If we live together with a lot of acceptance
We'll have no enemy and will grow our friends

Javeria Farhan
VIII

A call to peace, Is all we need
Peace is a state of mind Like a calm dine
Peace gives us pleasure, It is actually a huge treasure
Peace is for all Big and small
Like a flying bird and doll
Peace is inside the heart, All inside us from the dark
Should these lines make you remind
Its need of our mind
Peace begins with a smile

Hafsa Farooq Lakhani

Story writing

Once upon a time' there lived a girl named Lily. Lily was a kind girl. She always kept her promises. One day Lily asked her parents that could she go to the park. She promised that she would come back within a half hour. Her parents knew that she always kept her promises. So her parents said, you can go Lily but you must come back soon because we have to go somewhere. Lily said do not worry about me. I will come back as I promised. Then she left to the park.

While she was playing, she noticed an eagle flying in the sky. The eagle looked at Lily with its mighty eyes. The eagle chased Lily all around the park. Lily ran so fast that she did not even notice that she went out of the park. Soon she came to a small hut.

Without wasting any time, Lily knocked on the door. A witch opened the door. Actually, the eagle was a trap! The witch created that eagle with her magic wand. It was a fake eagle. The witch created that eagle, because the witch liked teasing little children and Lily was a child. Therefore, when the witch opened the door she asked politely, what happened little girl. She acted like that she was good but from the inside, she was bad. Lily was scared to say a word at first, but when the witch acted like she was good so Lily said, an eagle was chasing me. While I was running, I saw your hut and came here. The witch said, come in dear. I will protect you until the eagle is gone. Lily thanked the witch and entered the hut. When she entered the hut, the witch quickly shut the door and locked it. Lily got frightened. The witch took her wand and created a cage and **BANG!** The cage fell down on Lily. She started crying. She thought to herself that, crying would not help her get out. She remembered that she had read a book about what witches are scared of. On a line in that book, there was written that witches are especially scared of robbers. So Lily had an idea. She said to the witch, I can see robbers outside the window. The witch got scared. Lily fooled the witch and said, give the key of the cage to me so the robbers cannot get it. The witch got fooled and put the key in the cage with Lily and started thinking of spells to stop the robbers. Lily quickly opened the cage with the key and took the witch's wand. She trapped the witch and opened the locked door with the wand as well. She reached home soon.

More than a half-hour had passed. Her parents were worried about Lily. They were about to go and look for her and then the doorbell rang. Lily's mother opened the door. When she opened the door, she saw Lily. Her mother asked, where have you been Lily? Lily said it is a very long story.

The moral of the story is, if you are in trouble do not start crying but think of ways to get out of that situation. There is always a way to get out of any trouble.
