## Introduction

DM School System is one of the foremost schools playing a role in keeping the education system competitive. It has introduced a whole range of innovative techniques which prepare children for the future. From the gentle introduction to learning in Montessori School, to the steps taken towards independence in the Primary School, to tailoring a Senior Curriculum, our flexible curriculum ensures a rich variety of pathways to suit the ambitions of each student. We started with Pre-Primary only, and have now expanded to O/ A levels. At DM School System, we offer a program with an exclusive educational standard with an exceptional learning environment that firmly highlights a child's character building, and gives an opportunity to develop mental and physical skills. We offer multitudes of opportunities to our children that help in their holistic development and teach them how to empower to be eloquent representatives of society. Our well-trained faculty members are always on toes to keep the ethos of our school outstanding.

## Establishment

DM School System was established in January with a mission to prepare our children for the greatest challenge in their life; to make informed decisions. For this purpose as leaders of tomorrow, they need to be knowledgeable in various disciplines, and skilled in communication and analysis. Only such individuals will be best equipped to engage with people and issues from all over the world. DM School System recognizes and addresses these needs by fostering a dynamic and nurturing environment for the personal development of each student, through an acclaimed balanced curriculum. Our faculty members aim to produce an environment that encourages each pupil to develop qualities of self – discipline, organization, motivation and enjoyment of working hard which makes every DMian, a confident and a competent member of society.

## Achievements

By the grace of Allah and team efforts, we are going off on the path of success. DM School System has a series of accomplishments.

**ISA- International School Award:** A globally acclaimed award, ISA is a prestigious accomplishment awarded to schools by observing their ethos on international awareness, collaboration with international schools, involvement in community work etc.

**International School awards, Dubai:**  
Dm School System was the only school from Pakistan that won the Spirit of Enterprise Award, 2018 held in Dubai. The award was for the remarkable efforts as a school in the field of education

### Recognition from the Prime Minister 'Imran Khan':

Little freedoms are frequently the start of extraordinary accomplishments. Our rising star Hiba Noor of grade X composed a book on our honorable prime minister of Pakistan Mr. Imran Khan. It was distributed and a duplicate was shipped off to the Executive office in Islamabad and PM Mr. Imran Khan himself valued Hiba on her remarkable endeavour!

## Facilities At DM

### Activity based learning:

Our curriculum has been evolved and modified into a student centered active learning approach. Based on this maxim, learning by doing is our main focus. The more the senses are stimulated the more a person learns and retains.

### In-class activities :

DM School System is a firm believer in hands-on learning methods for which in-class activities are held. They prompt the students to enhance their confidence and learning skills.

### Reading Activity:

A child's reading skills are important to their success in school as it will allow them to improve their communication and language skills. In addition, reading can be a fun and imaginative time for children.

## Co Curricular Activities:

Besides developing academic excellence, the school strongly believes in the importance of co-curricular activities for students' holistic growth.

*Sports Day: One man practicing sportsmanship is far better than 50 preaching it.*

*Children's Day : Every child is a different kind of flower, and all together, makes this world a beautiful garden.*

*International Kangaroo Linguistic Competition and International Kangaroo Science Competition*

### Story Telling:

More often, thought-provoking story telling sessions are organized at our pre-primary campus, as a part of our value based educational programme. These interactive storytelling sessions are thoroughly enjoyed by the staff and students. Different activities are carried out at different levels that boost cognitive functions, thus enhancing better academic growth.

### Online Classes:

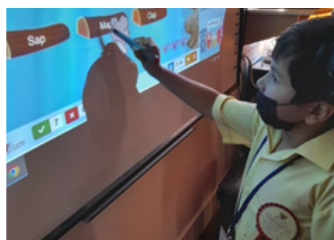

The seismic shift in the education system due to pandemic was not easy but definitely brought up a myriad of opportunities in the teaching and learning space. Although it started with trepidation, both our teachers and students have now adjusted to the new equilibrium of learning. Though the sudden shift to e-learning was stressful for both teachers and students, no doubt we successfully adapted to this new equilibrium of learning.

### Smart Room:

**“Technology alone isn’t going to improve students’ achievement. The best combination is great teachers working with technology to engage students in the pursuit of the learning they need.”**

Smart boards are great instruments for showing instructive substance that have rich intuitive illustrations. At DM, the brilliant board innovation is an approach to give quality instructions to students regarding information, expertise and qualities.

### School Ground:

Today's schools are not only tasked with preparing children for their future careers, but also teaching essential life skills, habits and attitudes that will help them successfully navigate adulthood. To do this and provide the best learning experience for students requires both indoor instruction and outdoor physical activity. For that purpose, we have designed a multi-functional sports ground, as well as an indoor sports room, which hosts a number of sports like basketball, football, tennis, throw ball, badminton, table tennis etc.

## Co Curricular Activities:

*Dawn Spelling Bee*

*Debate Competitions*

*Independence and Resolution Day*

*Inter School Throw ball Competition*

## Computer Lab

A computer laboratory plays an important role in enhancing the scientific, technological research and invention capacity of students. Our spacious computer lab is designed in a way which provides workstations for individual and group work. We have integrated ICT and project-based approaches into our curriculum. We infuse computer or internet-based teaching-learning activities to make our lessons more dynamic and where the students can learn to use the various software applications, including email and the internet which assists students in their studies.

## Science Lab:

We have two well-equipped science labs. As we believe that practical activities are a crucial part of a better understanding of science. We promote maximum use of laboratory at every level. Our laboratories have the latest facilities to curb any emergency/hazards. A well-equipped science lab aids in conducting all the necessary experiments and helps students learn both basic and advanced scientific techniques.

## Library-An integral aspect of learning:

A library is an important source of knowledge to young minds in our school. It develops the important habit of reading among the students. At DM school system, our libraries are fully equipped with multifarious books covering wide range of genres.

## Art Room :

A colorful room where our young artists let their imaginations run wild and get a chance to create a vibrant world of their own. Art is an expression of the deepest form. We at DM stimulate students to use their inner voice and emotions in the form of Art.

## Media Room:

We provide an air-conditioned space with a projector for a holistic and interactive learning environment for our senior students. Open forums and discussion with the students are held in the media room. This is the best place to sharpen their presentation skills.

## CCTV Cameras:

The safety and security of our children has always been the topmost priority of DM School System. CCTV Cameras monitor every crook and turn of our schools.

## Co Curricular Activities:

Grand Parents Day

World Water Day

Iqbal Day

World Post Day
